REGIONAL GAZETTE OF THE REGENCY OF SRAGEN OF 2025 NUMBER 1

Jakarta, 2 December 2025  
Has been translated as an Official Translation  
on behalf of the Minister of Law  
of the Republic of Indonesia  
DIRECTOR GENERAL OF LEGISLATION,

**ELUCIDATION  
OF  
REGULATION OF THE REGENCY OF SRAGEN  
NUMBER 1 OF 2025  
ON  
IMPLEMENTATION OF INVESTMENT**

**I. GENERAL**

Investment is an integral part of economic development, positioned as an effort to enhance economic growth, create new employment opportunities, promote sustainable development, strengthen capacity and technological advancement, support people-based economic development, and realize increasingly prosperous business actors in Sragen.

The objectives of administering investment can only be achieved if factors that hinder the investment climate are properly addressed, among others, through regulatory reform of legislation on investment, and central and regional bureaucratic reform. It is necessary to encourage an efficient and effective bureaucracy, ensure legal certainty in the investment sector, maintain competitive economic costs, and create a conducive business climate. With improvements in these supporting factors, the realization of investment is expected to increase significantly.

The Local Government, along with stakeholders from both the private sector and government, must focus more on developing local potential opportunities, as well as on coordinating investment promotion and services, particularly in carrying out investment affairs (a mandatory affair) based on the principles of Regional Autonomy and Delegated Duties or Deconcentration. Therefore, increased inter-agency coordination must be measurable through the speed and accuracy of services provided in the field of Investment, especially in Licensing services.

With regard to investment services, in order for the Regency of Sragen to become a preferred investment destination, it is necessary to improve regional competitiveness and create a more conducive business climate through the implementation of an Electronic Business Licensing System (Online Single Submission).

In order to provide legal certainty and enhance regional competitiveness, as well as to ensure balance and fairness in business services in the region, it is expected that the realization of Investment will increase. Therefore, the Local Government has adopted a policy to regulate investment through a Regional Regulation.
