ELUCIDATION OF
REGULATION OF THE MUNICIPALITY OF DEPOK
ON
IMPLEMENTATION OF LICENSING AND NON-LICENSING

I. GENERAL

In the face of the era of globalization and increasing societal demands, changes are needed in providing government services to the community. The approach of power that has been used in the service is no longer appropriate. Similarly, the scope of the current government's role and function should be directed to the regulatory function that serves as a guideline for the community and economic actors, namely individuals per person, limited liability companies, Local-Owned Enterprises (LOE), cooperatives and other institutions.

The regulation regarding the implementation of licensing and non-Licensing in various government agencies is felt by the public to still prioritize a culture of official power, overlapping regulations, bureaucratic, non-transparent and often illegal levies. Therefore, the arrangement of the implementation of licensing and non-Licensing is very necessary. The provisions of the constitution stipulate that the system of state government must be based on the principle of people's sovereignty and the principle of the rule of law. Based on these principles, all forms of decisions and actions of government administrators must be based on the principle of people's sovereignty and the principle of the rule of law.

The issuance of Law Number 11 of 2020 on Job Creation, which summarizes a lot of laws that previously stood alone, has an impact by having to be accompanied by adjustments to its implementing regulations. One of the changes in the Job Creation Law is the scope of licensing in Indonesia. One of them is the stipulation of Government Regulation No. 5 of 2021 on Implementation of Risk-Based Business Licensing (hereinafter referred to as the Business Licensing PP) which was issued on 2 February 2021. This Business Licensing Regulation revokes the issuance of Government Regulation Number 24 of 2018 on Electronically Integrated Business Licensing Services (Electronic Business Licensing PP).

In order to be efficient and effective as an effort to improve the quality of licensing implementation as described above, the City of Depok has issued Regulation of the Municipality of Depok Number 3 of 2019 on Licensing and Non-Licensing. However, after the birth of Law Number 11 of

2020, there were adjustments to various aspects of regulation related to the facilitation, protection, and empowerment of cooperatives and micro, small, and medium enterprises, improving the investment ecosystem, and accelerating national strategic projects, including improving the protection of workers' welfare, and in order to improve the investment ecosystem and business activities which then mandates these regulations in Government Regulation Number 5 of 2021 on Implementation of Risk-Based Business Licensing and Government Regulation Number 6 of 2021 on Implementation of Business Licensing in the Regions, so that the Regulation of the Municipality of Depok No. 3 of 2019 on Licensing and Non-Licensing needs to be reviewed.
